A short distance from major cities yet light years from the noise and congestion that's such a part of life for most of us, Wintergreen is a joyful contradiction—peaceful and remote, yet packed with amenities and activities for all ages.

Watch deer at dawn, enjoy world-class tennis, golf, skiing, or hiking during the day and relax over a romantic dinner prepared by nationally recognized chefs at night. You'll be hard-pressed to find the same combination of natural beauty, recreation, and modern accommodations anywhere else. If you have been here before, you will whole heartedly agree. If not, come for a visit! Whether it's for a vacation, a reunion, a honeymoon, or a conference, we have lodging that will help make your visit memorable and make you want to return again and again.

Our web site (www.wintergreenvarentals.com) has a complete list of properties for rent, as well as information about the rental program, about Wintergreen, an events calendar, and directions. Take some time out to see what Wintergreen and the surrounding areas have to offer you!
